CAREER OBJECTIVE

Dedicated and socially responsible Computer Engineering student specializing in Software Development. Driven to architect scalable, high-performance web structures and user-centered digital systems. Focused on integrating clean system logic with responsive web components to deliver seamless, user-centered digital solutions.

TECHNICAL SKILLS

- Web Technologies & UI/UX: ReactJS, Next.js 15, HTML5, CSS3, Tailwind CSS, TypeScript, JavaScript (ES6+), Supabase
- Systems & Data Logic: SQL, Database Management, System Performance Architecture, Python, Java, C++
- Platform Operations & Tools: E-Commerce Backend Systems, Digital Content Tracking, Git/GitHub (Version Control), Vercel, Cisco CL
- Core Competencies: Frontend Architecture, Data Integration & Analytics, Functional System Troubleshooting, Technical Documentation

EXPERIENCES

NexusCloud IT Solutions IT Intern

July 2025 – September 2025
Pasig City

Focused on hands-on project-based learning for network configurations and front-end development for cybersecurity tracks.

Accomplishments:

- Front-End Leadership: Headed the development of the Ethical Hacking & Penetration Testing program website using professional brand guidelines.
- Network Optimization: Configured complex VLANs, NAT, DHCP, and Access Control Lists (ACLs) using Cisco CLI for secure data environments.
- Technical Resource Creation: Authored a comprehensive set of reviewer notes for CCNA 200-301 and Security+, which were utilized as internal training materials.
- System Reliability: Successfully maintained simulated network uptimes by accurately troubleshooting RIP and OSPF routing protocols.

ATECH IT Solutions Inc. IT Intern

July 2024 – September 2024
Quezon City

Assisted the technical team with hardware/software troubleshooting and client-side support for IT infrastructure.

Accomplishments:

- Service Efficiency: Reduced technical downtime by diagnosing and resolving hardware/software issues for client workstations.
- Standardization: Streamlined the OS installation and software setup process, ensuring all systems were compliant with security standards.
- Technical Advisory: Improved customer satisfaction ratings by providing expert advice on computer parts selection and hardware installations.

Handled high-volume enrollment processing and administrative database management for the school's registrar.

Accomplishments:

- **Data Integrity:** Achieved 100% accuracy in processing student applications and financial documents during the peak enrollment season.
- **Workflow Optimization:** Improved administrative efficiency by reorganizing the student database for faster record retrieval and processing.
- **Confidentiality Management:** Successfully maintained the strict confidentiality and security of sensitive institutional and personal paperwork.

PROJECTS

Personal Website Portfolio

- Designed and built a modern, responsive portfolio to showcase specialized engineering skills and professional milestones.
- Implemented clean CSS transitions and interactive elements to enhance the overall user experience and project accessibility.
- Deployed via GitHub Pages using GitHub Actions for automated CI/CD and optimized asset management.
- Tech: Next.js, JavaScript, HTML5, Tailwind CSS, GitHub Actions, GitHub Pages.

GrowUp: Aquaponics IoT Dashboard

- Engineered a real-time monitoring interface for an automated vertical farming system using Raspberry Pi 5.
- Implemented dynamic data visualization components to render live sensor metrics (pH, temperature, light) with zero latency.
- Developed a scalable front-end architecture to handle continuous data streams from hardware to a web-based dashboard.
- Tech: TypeScript, Next.js, IoT Integration, Sensor Logic, Tailwind CSS.

HONORS & LEADERSHIP

- PUP President's Lister | 1st Semester, A.Y. 2022 – 2023
- PUP Dean's Lister | 2nd Semester, A.Y. 2025 – 2026
- Iskolar ni Gob (SAP Scholarship) | Provincial Government of Rizal (2022 – 2026)
- Member (Humane Education Committee | Youth for Animals – PUP Main (2023 – 2024, 2025 – 2026)
- Treasurer | Youth for Animals – PUP Main (2024 – 2025)
- Member (Adoption and Fostering Committee) | Sintang Pusa – PUP Main (2024 – 2026)
- Flyer | PUP College of Communication (COC) Cheering Squad (2025 – 2026)

EDUCATION

Polytechnic University of the Philippines, Manila
Bachelor of Science in Computer Engineering

October 2022 - September 2026
Sta. Mesa, Manila
